MICRO KIT

Available in two assortments, this is the smallest portable kit.
It includes the tools needed for identification using the TRASP system and a selection of marking elements.
The kit has the following dimensions: 170 x 210 x 75 mm

Cut the transparent holder or the channel at the required length with the appropriate pliers. Insert the characters into the transparent holder or into the channel, remembering to insert blank elements at each end of the text to underline the marking.

Fasten the holder or the channel with straps or, on flat surfaces, use either self-adhesive tape or screws.
